Cumulative Index 1986

Volume 13

March	EMERGENCY MEDICINE FOR THE PRIMARY CARE PHYSICIAN
June	BIOMEDICAL ETHICS
September	OFFICE SURGERY
December	INTERVENTIONAL URORADIOLOGY

Note: Page numbers of issue and article titles are in **boldface** type.

Abdomen, examination of, Mar., 7–10
in trauma patient, Mar., 40–41
pain in, causes of, classification of, Mar., 6
differential diagnosis of, Mar., 10–17
nonsurgical diseases in, Mar., 11, 14–17
above the diaphragm, Mar., 14–15
below the diaphragm, Mar., 15–16
surgical diseases in, Mar., 10, 11–14
etiology and pathogenesis of, Mar., 3–4
evaluation of patient with, Mar., 4–7
history in, Mar., 5–7
laboratory and diagnostic studies of, Mar., 17–18
management of, Mar., **3–19**
Abortion, future possibilities in, June, 261–262
impending, diagnosis of, Dec., 673
management of, Mar., 139–140
new debate on, June, **255–262**
recent scientific and medical developments in, implications of, June, 257–260
legal, June, 257–258
moral, June, 259–260
political, June, 260
psychologic, June, 258
social, June, 258–259
Abruptio placentae, and third-trimester bleeding, Mar., 141
management of, Mar., 140
Abscesses, cutaneous. See *Cutaneous abscesses.*
tubo-ovarian, vs. acute appendicitis, Mar., 13
Acid-base disorders. See *Fluid, electrolyte, and acid-base disorders.*
Acidosis, metabolic, office laboratory evaluation of, Dec., 775–776
respiratory, office laboratory evaluation of, Dec., 777–778
systemic, diagnosis of, urinary pH in, Dec., 767
Acute renal failure, classification of, Mar., 171, 172
definition of, Mar., 169–171
diagnosis of, Mar., 169–171
differential diagnosis of, Mar., 171–174
outpatient management of, Mar., **169–176**
prevention of, Mar., 174–175
treatment of, Mar., 174–175
Adolescents, parental decisions for, June, 289–291
limits of childhood and, June, 290–291
on health and safety issues, June, 290
Agranulocytosis, management of, Mar., 163

Airway, lower, obstruction of, Mar., 180
maintenance of, in trauma patient, Mar., 36–37
protection of, in convulsions, Mar., 78
upper, obstruction of, Mar., 178–180
Akathisia, management of, Mar., 162
Alcohol abuse, management of, Mar., 163–164
Alkalosis, metabolic, diagnosis of, urinary pH in, Dec., 767
office laboratory evaluation of, Dec., 776–777
respiratory, office laboratory evaluation of, Dec., 778
American Medical Association, ethics code of, June, 234–235
Anal canal, anatomy of, and hemorrhoids, Sept., 527
dilatation of, for hemorrhoids, Sept., 540
Anaphylaxis, exercise-induced, in athletes, Mar., 212
Anesthesia, in wound closure, Sept., 413–415
paracervical block, Mar., 138
Aneurysm, dissecting aortic, Mar., 58
ruptured abdominal, Mar., 13
Angina pectoris, hypertension and, Mar., 113
management of, Mar., 55–57
Angioedema, hereditary, management of, Mar., 87–88
Angiography, for abdominal pain, Mar., 18
Anion gap, in fluid, electrolyte, and acid-base balance, Dec., 770
Antibodies, monoclonal, in pregnancy testing, Dec., 671
Antidepressants, tricyclic, toxicity of, Mar., 162
Antidiuretic hormone, secretion of, in fluid, electrolyte, and acid-base balance, Dec., 763, 766, 768, 769, 772, 773, 774, 777
Aortic dissection, acute, management of, Mar., 112
Appendicitis, acute, differential diagnosis of, Mar., 12–13
management of, Mar., 11–12
Arteritis, giant cell, temporal artery biopsy for, Sept., 574–577
Arthritis, septic, management of, Mar., 148
Aspiration, of bone marrow, Sept., 571–574
of joints, and soft tissue injection, Sept., **579–599**
guidelines for, Sept., 580–581
in "trigger finger," Sept., 590, 593
in bicipital tendinitis, Sept., 588
in de Quervain's syndrome, Sept., 590
in finger joints, Sept., 595
in first metatarsophalangeal joint, Sept., 595
in ganglion, Sept., 593
in knee, Sept., 584–586
in muscle trigger points, Sept., 595, 599
in subacromial or subdeltoid bursitis, Sept., 588
in supraspinous tendinitis, Sept., 586–588
in tennis elbow, Sept., 588, 590
steroid preparations in, Sept., 581, 583–584
of middle ear space. See *Tympanocentesis.*
Asthma, bronchial. See *Bronchial asthma.*
exercise-induced, in athletes, Mar., 212
Athletes, allergic emergencies in, Mar., 212
cardiac emergencies in, Mar., 211
diving emergencies in, Mar., 213–214
general trauma in, Mar., 207–208
head injuries in, Mar., 208–210
heat reactions in, Mar., 213
infectious emergencies in, Mar., 212
lung injuries in, Mar., 210–211
metabolic emergencies in, Mar., 212
neck injuries in, Mar., 210
Autonomy, in intensive care unit, refusal of treatment and, June, **395–408**
principles of, in decision making, June, 315–317

Baby Doe, and child's medical protection, June, 271–273
Bloomington case of, June, 275–276
Hopkins case of, June, 273–275
implications for medical practice. June, 278–279
in delivery room, June, 278–279
in nursery, June, 279
infant bioethics committees and, June, 279–281
law and, June, 276–278
parental discretion vs. medical neglect, June, **271–283**
Bacteremia, gram-negative, Mar., 129–130
Bacteria, infections due to, management of, Mar., 85, 91
Balanitis, circumcision for, Sept., 516
Benzodiazepines, interaction with other drugs, Mar., 164
toxicity of, Mar., 161–162
Bicarbonate, serum, in fluid, electrolyte, and acid-base balance, Dec., 769
Biopsy, bone marrow, Sept., 571–574
endometrial. See *Gynecologic procedures.*
excisional, Sept., 437–439
fine-needle aspiration. See *Fine-needle aspiration biopsy.*
punch, Sept., 569–571
temporal artery, Sept., 574–577

Bites, insect, management of, Mar., 85, 94
Bleeding, dysfunctional uterine, Mar., 137
first-trimester, Mar., 139
third-trimester, Mar., 140–141
Bleomycin, for warts, Sept., 469, 471–472
Blood, acute loss of, signs and symptoms of, Mar., 198–199
Blood pressure, in trauma patient, Mar., 38
Blood urea nitrogen, in fluid, electrolyte, and acid-base balance, Dec., 770
Bone marrow, aspiration of, Sept., 571–574
biopsy of, Sept., 571–574
Bones, infections of, Mar., 124–125
Bradycardia, fetal, Mar., 143
Brain, death and dying and, June, **367–378**
Breast, masses of, fine-needle aspiration biopsy for, Sept., 558–559, 561
Bronchial asthma, classification of, Mar., 45
management of, Mar., **45–53**
pathophysiology of, Mar., 45–46
patient history of, Mar., 46
peak expiratory flow rate in, Mar., 47–50
physical examination of, Mar., 46
severity of, evaluation of, Mar., 47–50
treatment of, Mar., 47–54
drugs for, Mar., 50, 51, 52
equipment for, Mar., 47, 52
Burns, management of, Mar., 85, 93
of respiratory system, Mar., 191
Bursitis, subacromial or subdeltoid, joint aspiration and soft tissue injection in, Sept., 588

Cancer, colorectal, flexible sigmoidoscopy for. See *Flexible sigmoidoscopy.*
statistics on, Sept., 543–544
Candida, detection of, in vaginitis, Dec., 639, 640, 642–643, 644
Carbon dioxide, depletion of, office laboratory evaluation of, Dec., 778
retention of, office laboratory evaluation of, Dec., 777–778
Carcinoma, endometrial, biopsy for. See *Gynecologic procedures.*
risk factors for, Sept., 494–495
Cardiac arrest, advanced life support for, Mar., **21–32**
airway and breathing in, Mar., 23
circulation in, Mar., 23–24
drugs for, Mar., 22, 26, 28, 29
equipment for, Mar., 21–22
in pediatric patient, Mar., 29–30, 31
initial management of, Mar., 22–23
intravenous access in, Mar., 24
monitoring in, Mar., 24–29
new developments in, Mar., 30, 32
postresuscitative management of, Mar., 29
Cardiac function, in trauma patient, Mar., 38
Cardiomyopathy, hypertrophic, in athletes, Mar., 211
Centers for Disease Control, standards for laboratories, Dec., 605–606
Cervicitis, cryosurgery for, Sept., 506
Chest, examination of, in trauma patient, Mar., 40
open wounds of, Mar., 190–191
pain in, cardiovascular, Mar., 55–58
causes of, Mar., 56
emotional, Mar., 59–60
gastrointestinal, Mar., 59
management of, Mar., **55–61**
neuromusculoskeletal, Mar., 60
noncardiovascular, Mar., 57–60
nonischemic cardiac, Mar., 58–59
Children, cardiac arrest in, advanced life support for, Mar., 29–30, 31
medical protection of, June, 271–273
parental decisions for, June, **285–293**
age limits in, June, 290–291
historical aspects of, June, 286
need for, June, 291–292
paternalism in, June, 287–289
Chloride, serum, in fluid, electrolyte, and acid-base balance, Dec., 769–770
Cholecystitis, vs. acute appendicitis, Mar., 12
Chronic obstructive pulmonary disease, management of, Mar., 180–182
Circulatory system, acute blood loss in, Mar., 198–199
inadequate blood volume in, Mar., 197–199
pump failure in, Mar., 194–196
Circumcision, and meatotomy, Sept., **513–525**
complications of, Sept., 520–521
meatal stenosis, Sept., 522–524
history of, Sept., 514–515
indications and contraindications for, Sept., 515–516
methods of, Sept., 516–518, 520
Gomco, Sept., 517–518
Plastibell, Sept., 518, 520
statistics on, Sept., 514
Clostridia, infections due to, Mar., 127–128
Coagulation, infrared, for hemorrhoids, Sept., 540
Coma, emergency treatment of, Mar., 68
evaluation of patient in, Mar., 64–68
history and type of lesion in, Mar., 64–65
localization of lesion in, Mar., 65–68
eye signs in, Mar., 65–66
posturing in, Mar., 65
respiratory patterns in, Mar., 67
prognostication in, Mar., 67–68
management of, Mar., **63–69**
mechanisms producing, Mar., 63–64

Computed tomography, for abdominal pain, Mar., 18
for convulsions, Mar., 81
for headache, Mar., 103–104
for intracranial infection, Mar., 132
for trauma patient, Mar., 42
Concussions, in athletes, Mar., 208
Condylomata acuminata, clinical manifestations of, Sept., 472–473
laser therapy for, Sept., 473–474
Congestive heart failure, and pulmonary edema, management of, Mar., **71–75**
cardiac physiology of, Mar., 71
Consciousness, altered state of, Mar., 130–133
Consent, informed, principles of, in decision making, June, 315–317
Convulsions, classification of, Mar., 77
evaluation of, Mar., 80–81
computed tomography in, Mar., 81
spinal tap in, Mar., 80–81
management of, Mar., **77–82**
acute, Mar., 78–79
office treatment of, Mar., 79–80
protection of airway in, Mar., 78
recurrence of, risk of, Mar., 81
Creatinine, serum, in fluid, electrolyte, and acid-base balance, Dec., 770
Creatinine clearance, formula for, Mar., 169–170
Cricothyroidostomy, technique for, Mar., 189–190
Cryosurgery, for gynecologic procedures. See *Gynecologic procedures.*
for hemorrhoids, Sept., 540
Cutaneous abscesses, management of, Sept., 484–490
cultures and antibiotic coverage in, Sept., 484
pilonidal sinus disease, Sept., 485, 488, 490
procedure for, Sept., 485
Cysts, epithelial. See *Epithelial cysts.*
myxoid (mucoid), surgery for, Sept., 462

Davidsohn differential absorption test, in diagnosis of mononucleosis, Dec., 647
de Quervain's syndrome, joint aspiration and soft tissue injection in, Sept., 590
Death, decisions of elderly about, June, 300–303
dying and the brain and, June, **367–378**
Decision making, about scarce medical resources, June, **343–348**
autonomy, self-determination, and informed consent in, June, 315–317
courts, legislatures, and lawyers in, June, **307–313**
developing issues in, June, **315–326**
durable power of attorney in, June, 317–321
ethics committees in, June, 321–324
in elderly. See *Elderly.*
parental, for adolescents, June, 289–291
for children. See *Children.*
Dermatitis, contact, Mar., 83, 84, 86
exfoliative, Mar., 86–87
phototoxic, Mar., 85, 93
Dermatology, emergencies in, Mar., **83–95**
diagnostic tests for, Mar., 95
Diabetes mellitus, in athletes, Mar., 212
leukocyte esterase tests in, Dec., 687–688
Diagnostic procedures, Sept., **565–578.** See also *Physician's office laboratory.*
bone marrow aspiration and biopsy, Sept., 571–574
punch biopsy, Sept., 569–571
tympanocentesis, Sept., 565–569
Dinitrochlorobenzene, for warts, Sept., 469, 471–472
Dipstick tests, urinary. See *Leukocyte esterase test.*
Diuretics, hypokalemia due to, Dec., 779
Diverticulum, ruptured, vs. acute appendicitis, Mar., 12–13
Diving, emergencies in, Mar., 213–214
Drugs, adverse psychiatric effects of, Mar., 165–166
for acute renal failure, Mar., 174–175
for alcohol abuse, Mar., 164
for asthma, Mar., 50, 51, 52
for bone and joint infections, Mar., 125
for chronic obstructive pulmonary disease, Mar., 182
for clostridial infections, Mar., 127–128
for comatose patient, Mar., 68
for convulsions, Mar., 79, 80
for dermatologic conditions, Mar., 86–95
for gram-negative septicemia, Mar., 130
for gynecologic and obstetric emergencies, Mar., 136–138, 141–143
for headache, Mar., 104–106
for hypertension, Mar., 111–116
for intracranial infections, Mar., 132–133
for pneumonia, Mar., 123–124
for poisoning, Mar., 152
for pulmonary edema, Mar., 72–73, 185–186
for respiratory control, Mar., 186
for septic arthritis, Mar., 148
for shock, Mar., 202–203
for sinus infections, Mar., 126
for sports emergencies, Mar., 208
for staphylococcal infections, Mar., 122
for streptococcal infections, Mar., 120–121
for tetanus, Mar., 129
for violent patient, Mar., 160

in advanced cardiac life support, Mar., 22, 26, 28, 29
interference of, in pregnancy testing, Dec., 675
office therapeutic monitoring of. See *Physician's office laboratory.*
psychopharmacologic, interaction with other drugs, Mar., 164–165
toxicity of, Mar., 161–163
reactions to, management of, Mar., 84, 90–91
Duofilm, for warts, Sept., 470, 471
Dysrhythmia, management of, Mar., 26, 27
recognition of, Mar., 24–26

Ear, middle, aspiration of. See *Tympanocentesis.*
Eclampsia, management of, Mar., 113–114
Ectopic pregnancy, diagnosis of, Dec., 673
Edema, pulmonary. See *Pulmonary edema.*
Elderly, in nursing homes, decision making in, June, 295–297
about death and dying, June, 300–303
about locus of care, June, 298–300
about rationing and financing, June, 303–305
ethical issues of, June, **295–306**
leukocyte esterase tests in, Dec., 687–688
Electrocardiogram, for myocardial infarction, Mar., 57–58
Electrolyte disorders. See *Fluid, electrolyte, and acid-base disorders.*
Electrolytes, urinary, in fluid, electrolyte, and acid-base balance, Dec., 768
Embolism, pulmonary. See *Pulmonary embolism.*
Embryo, human, moral status of, June, 251–252
Encephalopathy, hypertensive, management of, Mar., 110–112
Endocarditis, staphylococcal, diagnosis of, Mar., 122
Endometrial biopsy. , See *Gynecologic procedures.*
Endoscopy, for abdominal pain, Mar., 18
Enzyme-linked immunosorbent assay, in pregnancy testing, Dec., 671
Epiphysis, injuries to, management of, Mar., 147–148
Epithelial cysts, and cutaneous abscesses, management of, Sept., **477–491**
definition of, Sept., 477
removal of, Sept., 477–484
cryosurgery in, Sept., 480, 483
for facial cysts, Sept., 478, 480
for retroauricular cysts, Sept., 478
for small cysts, Sept., 478
incision and drainage with curettement in, Sept., 480
trephining in, Sept., 480
injection of chemical irritants in, Sept., 483
Epstein-Barr virus, mononucleosis due to. See *Mononucleosis.*
Erythema multiforme, management of, Mar., 84, 88
Erythema nodosum, management of, Mar., 84, 90
Estrogen replacement therapy, and risk of endometrial carcinoma, Sept., 495
Ethics, medical. See *Medical ethics.*
Excisional biopsy, procedure for, Sept., 437–439
Extremities, examination of, in trauma patient, Mar., 41

Face, cysts of, removal of, Sept., 478, 480
Faith, dimensions of, in medical practice, June, **263–270**
implications of, June, 268–269
Jehovah's Witness, case study of, June, 264–266
Jewish, case study of, June, 266–267
in medical ethics, June, 235–236
Fertilization, in vitro. See *In vitro fertilization.*
Fetus, bradycardia in, Mar., 143
Fever, management of, Mar., 130–133
Fine-needle aspiration biopsy, Sept., **549–564**
complications of, Sept., 550
cost of, Sept., 549–550
equipment for, Sept., 561
for breast masses, Sept., 558–559, 561
for neck masses and lymph nodes, Sept., 556, 558
for thyroid masses, Sept., 553–556
history of, Sept., 549
indications for, Sept., 550
staining techniques for, Sept., 561–563
technique for, Sept., 550–553
Fingers, joint aspiration and soft tissue injection in, Sept., 595
Fistulas, urethrocutaneous, following circumcision, Sept., 521
Flaps, tissue, in wound closure, Sept., 439–444
Flexible sigmoidoscopy, Sept., **543–547**
indications and contraindications for, Sept., 545
patient positioning for, Sept., 546
patient preparation for, Sept., 545–546
procedure for, Sept., 546–547
Fluid, electrolyte, and acid-base disorders, office laboratory evaluation of, Dec., **761–782**

Fluid, electrolyte, and acid-base disorders (*Continued*)
biochemical analytic systems, Dec., 762
hyperkalemia, Dec., 780
hyperosmolality, Dec., 774–775
hypervolemia, Dec., 772–773
hypokalemia, Dec., 778–780
hypo-osmolality, Dec., 773–774
hypovolemia, Dec., 771–772
in ambulatory patient populations, Dec., 762–763
metabolic acidosis, Dec., 775–776
metabolic alkalosis, Dec., 776–777
mixed acid-base disturbances, Dec., 778
physiology of, Dec., 763, 766–771
anion gap, Dec., 770
blood urea nitrogen, Dec., 770
hematocrit, Dec., 766
pH and PCO_2, Dec., 771
serum bicarbonate, Dec., 769
serum chloride, Dec., 769–770
serum creatinine, Dec., 770
serum glucose, Dec., 770
serum potassium, Dec., 769
serum sodium, Dec., 768–769
urinary electrolytes, Dec., 768
urinary glucose, Dec., 768
urinary ketones, Dec., 767–768
urinary pH, Dec., 767
urinary protein, Dec., 768
urine specific gravity, Dec., 766
volume regulation, Dec., 763
water balance, Dec., 763
weight, Dec., 763, 766
respiratory acidosis, Dec., 777–778
respiratory alkalosis, Dec., 778
Fractures, of skull, in athletes, Mar., 208
open, management of, Mar., 145–146
Freer septal elevator, for surgery of nails, Sept., 449, 453, 457

Ganglion, joint aspiration and soft tissue injection in, Sept., 593
Gardnerella, detection of, in vaginitis, Dec., 637–638, 639, 640
Genitourinary tract, examination of, in trauma patient, Mar., 41
Glans, infection of, circumcision for, Sept., 516
Glasgow Coma Scale, in trauma patient, Mar., 39
Glucose, analysis of, in office laboratory. See *Physician's office laboratory.*
serum, in fluid, electrolyte, and acid-base balance, Dec., 770
urinary, in fluid, electrolyte, and acid-base balance, Dec., 768
Glycosuria, diagnosis of, urinary glucose in, Dec., 768
Gynecologic procedures, Sept., **493–511**
cryosurgery, Sept., 504–509
applications of, Sept., 506–507
instruments for, Sept., 505–506
post-treatment surveillance for, Sept., 509
principles of, Sept., 504–505
technique for, Sept., 507–509
emergency, Mar., **135–138**
endometrial biopsy, Sept., 493–504
contraindications to, Sept., 496
follow-up care for, Sept., 503
indications for, Sept., 494–496
technique for, Sept., 496–503
cytologic, Sept., 497–500
Accurette, Sept., 498–499
Endocyte, Sept., 498
Mi-Mark, Sept., 499–500
histologic sampling, Sept., 500–503
Kevorkian curette, Sept., 500–501
Pipelle, Sept., 502–503
Vabra Aspirator, Sept., 501–502
Vakutage, Sept., 502

Head, examination of, in trauma patient, Mar., 39–40
Headache, causes of, Mar., 101–102
classic migraine, Mar., 100
classification of, Mar., 98–100
cluster, Mar., 100
common migraine, Mar., 100–102
emergency evaluation and treatment of, Mar., **97–107**
laboratory tests for, Mar., 103–104
management of, Mar., 104–106
muscle tension, Mar., 101
patient history of, Mar., 102–103
physical examination for, Mar., 103
primary syndromes of, Mar., 99–100
management of, Mar., 104–106
Heat stroke, in athletes, Mar., 213
Hemagglutination inhibition, in pregnancy testing, Dec., 669
Hematocrit, in fluid, electrolyte, and acid-base balance, Dec., 766
Hematology, automated office instruments for, Dec., **727–741**
analysis of practice requirements, Dec., 728–731
commercial and hospital laboratories, Dec., 728
manual methods, Dec., 728–729
types of instruments, Dec., 729–731
analyzing information on, Dec., 732, 734
locating a vendor for, Dec., 732

office demonstration of, Dec., 734–735
principles of operation, Dec., 735, 737, 739–740
centrifugal hematology instruments, Dec., 739–740
impedance hematology instruments, Dec., 735, 737, 739
quality control in, Dec., 740
Hematomas, in athletes, Mar., 209
subungual, surgery for, Sept., 460
Hemoptysis, management of, Mar., 186–187
Hemorrhage, following circumcision, Sept., 520
postpartum, Mar., 143–144
Hemorrhoids, anal canal anatomy and, Sept., 527
classification of, Sept., 529
etiology of, Sept., 527, 529
examination for, Sept., 531
general treatment for, Sept., 531–532
outpatient management of, Sept., **527–541**
prevention of, Sept., 540
severe, treatment for, Sept., 540
specific treatment for, Sept., 532–540
for external hemorrhoids, Sept., 532, 534
for internal hemorrhoids, Sept., 534, 537, 539–540
band ligation procedure, Sept., 534, 537, 539
symptoms of, Sept., 531
Hemostasis, in wound closure, Sept., 418–419
Herpes simplex, management of, Mar., 85, 91–92
Hormones, placental, in pregnancy testing, Dec., 667–668
Human chorionic gonadotropin, in pregnancy testing. See *Pregnancy testing.*
Hyperkalemia, office laboratory evaluation of, Dec., 780
Hypernatremia, antidiuretic hormone excretion in, Dec., 766
office laboratory evaluation of, Dec., 774–775
Hyperosmolality, office laboratory evaluation of, Dec., 774–775
Hyperplasia, and risk of endometrial carcinoma, Sept., 495–496
Hypertension, and angina, Mar., 113
and myocardial infarction, Mar., 113
and pulmonary edema, Mar., 112
clonidine withdrawal and, Mar., 114
emergencies involving, Mar., **109–117**
classification of, Mar., 109–110
pathogenesis of, Mar., 110
food and drug interactions and, Mar., 114
in eclampsia, Mar., 143
treatment of, Mar., 114–116
Hypervolemia, office laboratory evaluation of, Dec., 772–773
Hypokalemia, office laboratory evaluation of, Dec., 778–780
Hyponatremia, diagnosis of, urine specific gravity in, Dec., 766
office laboratory evaluation of, Dec., 773–774
Hypo-osmolality, office laboratory evaluation of, Dec., 773–774
Hypotension, in athletes, Mar., 209
Hypovolemia, office laboratory evaluation of, Dec., 771–772

Immunoassays, for group A streptococci, Dec., 659–660
in pregnancy testing, Dec., 669
Impotence, following circumcision, Sept., 521
In vitro fertilization, ethics of, June, **241–253**
fair and equitable access, June, 250–251
infertility as a disease, June, 249–250
moral status of human embryo, June, 251–252
growing demand for, June, 243–244
individual justice questions in, June, 242–243
nonstandard procedure for, June, 246
policy issues in, June, 247–248
social justice questions in, June, 242
standard procedure for, June, 245–246
Warnock Commission on, June, 247–248
Infections, bacterial, Mar., 85, 91
clostridial, Mar., 127–128
emergencies involving, Mar., **119–134**
following circumcision, Sept., 520
of bones and joints, Mar., 124–125
of glans, circumcision for, Sept., 516
of nail folds, surgery for, Sept., 456–457
of sinuses, Mar., 125–126
of upper respiratory tract, Mar., 122–124
staphylococcal, Mar., 121–122
streptococcal, Mar., 119–121
Informed consent, principles of, in decision making, June, 315–317
Insects, bites due to, management of, Mar., 85, 94
Intensive care unit, autonomy in, refusal of treatment and, June, **395–408**
Intestines, obstruction of, vs. acute appendicitis, Mar., 13
Intracranial disease, headache due to, Mar., 98
Intravenous access, in advanced cardiac life support, Mar., 24
Itch, swimmer's, management of, Mar., 93–94

Joints, aspiration of, and soft tissue injection. See *Aspiration*.
infections of, Mar., 124–125
injuries to, Mar., 146–147
Judiciary, role of, in treatment decisions, June, 307–310

Ketoacidosis, diabetic, diagnosis of, urinary ketones in, Dec., 767–768
Ketones, urinary, in fluid, electrolyte, and acid-base balance, Dec., 767–768
Kidneys, failure of. See *Acute renal failure*.
function of, tests of, Mar., 173–174
Knee, joint aspiration and soft tissue injection in, Sept., 584–586

Labor, preterm, management of, Mar., 141
Laboratory industry, representatives of, evaluation of, Dec., 696–697
role of, Dec., **691–697**
need and problem analysis, Dec., 692–693
product information, Dec., 693–694
responding to customer calls, Dec., 695
service, Dec., 694–695
vs. distributor representatives, Dec., 695–696
Laboratory regulation, Centers for Disease Control standards for, Dec., 605–606
for physician's office, Dec., **605–615**
future prospects of, Dec., 614
Pennsylvania program for, Dec., 608–613
Level I, Dec., 608–609
Level II, Dec., 609, 612
Level III, Dec., 613
recent developments in, Dec., 606–607
responsibility of physician-director in, Dec., 613–614
Lactobacillus, detection of, in vaginitis, Dec., 637
Lancefield precipitin test, for group A streptococci, Dec., 659–660
Langer's lines, in skin anatomy, Sept., 411–412
Laser therapy, for condylomata acuminata, Sept., 473–474
Latex particle inhibition test, in pregnancy testing, Dec., 669
Law, and Baby Doe cases, June, 276–278
in medical ethics, June, 232–233
Lawyers, role of, in treatment decisions, June, 311–312
Legislature, role of, in treatment decisions, June, 310–311
Leptothrix, detection of, in vaginitis, Dec., 638
Leukocyte esterase test, clinical uses of, Dec., **679–689**
examples of, Dec., 680–682
urinary dipstick tests, Dec., 682–688
discussion of literature, Dec., 683–686
uses of, Dec., 686–688
Lice, management of, Mar., 95
Lithium, interaction with other drugs, Mar., 165
toxicity of, Mar., 163
Lung, injuries to, in athletes, Mar., 210–211
Lymph nodes, fine-needle aspiration biopsy for, Sept., 556, 558

M-plasty, for wound closure, Sept., 444
Meatotomy, procedure for, Sept., 522, 524
Meatus, stenosis of, following circumcision, Sept., 522–524
Medical ethics, American Medical Association code of, June, 234–235
committees on, June, **327–341**
characteristics of, June, 330–331
drawbacks of, June, 337–338
for infants, June, 279–281
functions of, June, 331–337
consultation, June, 333–336
education, June, 331–332
guidelines, June, 332–333
retrospective review, June, 336–337
historical aspects of, June, 328–330
in decision making, June, 321–324
organization of, June, 338–339
common misunderstandings in, June, **225–240**
common sense in, June, 230–231
definition of, June, 226–228
for elderly, in nursing homes. See *Elderly*.
immediate decisions and, June, 233–234
law in, June, 232–233
obtaining and distributing organs for transplantation and, June, **379–394**
of in vitro fertilization. See *In vitro fertilization*.
opinions in, June, 231–232
cultural subjectivism, June, 231–232
personal subjectivism, June, 231
patient judgment and, June, 238–239
physician freedom and, June, 237–238
physician judgment and, June, 236–237
religion and, June, 235–236
Medicine, faith dimensions in. See *Faith*.
scarcity of resources in, allocation decisions in, June, **343–348**

and rationing of health care, June, 350–351
Melanomas, subungual, surgery for, Sept., 462
Metatarsophalangeal joint, first, aspiration and soft tissue injection in, Sept., 595
Monoamine oxidase inhibitors, interaction with other drugs, Mar., 164–165
toxicity of, Mar., 163
Monoclonal antibodies, in pregnancy testing, Dec., 671
Mononucleosis, in athletes, Mar., 212
office laboratory in diagnosis of, Dec., **647–655**
diagnostic features in, Dec., 648–654
Epstein-Barr virus-specific serodiagnosis for, Dec., 652–653
hematologic evaluation of, Dec., 649–650
rapid slide tests for, Dec., 650–652
test specificity and sensitivity in, Dec., 653–654
history of testing in, Dec., 647–648
Monsel's solution, in nail surgery, Sept., 454, 462
Muscles, trigger points of, joint aspiration and soft tissue injection in, Sept., 595, 599
Myocardial infarction, hypertension and, Mar., 113
management of, Mar., 57–58
Myringotomy, vs. tympanocentesis, Sept., 565–566

Nails, anatomy of, Sept., 447
diseases of, surgical treatment of, Sept., **447–463**
anesthesia for, Sept., 449
for avulsions and plate injuries, Sept., 457, 460
for myxoid (mucoid) cysts, Sept., 462
for onychogryphosis, Sept., 453–454, 456
for paronychia, Sept., 456–457
for periungual warts, Sept., 460, 462
for subungual hematomas, Sept., 460
for subungual melanomas, Sept., 462
specialized techniques and instruments for, Sept., 447, 449–453
Neck, examination of, in trauma patient, Mar., 40, 190
immobilization of, Mar., 190
injuries to, in athletes, Mar., 210
masses of, fine-needle aspiration biopsy for, Sept., 556, 558
Neglect, medical, vs. parental discretion, June, **271–283**
Neoplasia, cervical intraepithelial, cryosurgery for, Sept., 506–507
Neoplasms, testicular, diagnosis of, Dec., 673
Neuroleptic malignant syndrome, management of, Mar., 162–163
Nitrogen, liquid, for warts, Sept., 467–469, 471, 473
Nursing homes, elderly in, ethical issues of. See *Elderly*.

Obstetrics, emergencies in, Mar., **139–144**
Onychogryphosis, surgery for, Sept., 453–454, 456
Organic brain syndromes, management of, Mar., 160–161
Orthopedics, emergencies in, Mar., **145–149**
Osmolality, serum, formula for, Dec., 768
Osteomyelitis, management of, Mar., 124–125
Otalgia, tympanocentesis for, Sept., 566
Otitis media, tympanocentesis for, Sept., 566

Pain, cervical, headache due to, Mar., 98
facial, headache due to, Mar., 98
Papanicolaou smear, for cervical cancer, Sept., 493–494
Papillomaviruses, clinical manifestations of, Sept. 466
Paraphimosis, circumcision for, Sept., 516
Parents, decision making by, for adolescents, June, 289–291
for children. See *Children*.
Paronychia, surgery for, Sept., 456–457
Paternalism, in parental decision making, June, 287–289
PCO_2, in fluid, electrolyte, and acid-base balance, Dec., 771
Pelvis, examination of, in trauma patient, Mar., 41
pain in, management of, Mar., 135–137
Pericarditis, diagnosis of, Mar., 58–59
pH, in fluid, electrolyte, and acid-base balance, Dec., 771
urinary, in fluid, electrolyte, and acid-base balance, Dec., 767
Pharyngitis, streptococcal. See *Streptococcal pharyngitis*.
Phenol, solutions of, for epithelial cysts, Sept., 483
for hemorrhoids, Sept., 539–540
Pheochromocytosis, management of, Mar., 113

Phimosis, circumcision for, Sept., 515
Physician's office laboratory, assessing chemistry instruments in, Dec., **699–711**
criteria for, Dec., 704–711
accuracy and precision, Dec., 707
calibration, Dec., 708
costs, Dec., 709–710
factors important to physician, Dec., 710–711
incubation, Dec., 708
pipetting, Dec., 708
quality control, Dec., 707–708
reading results, Dec., 708–709
reagents, Dec., 709
scope of tests, Dec., 707
staff availability and ability, Dec., 710
testing speed, Dec., 707
rationale for office testing, Dec., 700–701
selection criteria for tests, Dec., 701–704
financial considerations, Dec., 704
legal considerations, Dec., 703–704
managerial considerations, Dec., 704
medical needs, Dec., 702
technical factors, Dec., 702–703
test ordering and system requirements, Dec., 699–700
diagnosis of mononucleosis in. See *Mononucleosis*.
evaluation of fluid, electrolyte, and acid-base disorders in. See *Fluid, electrolyte, and acid-base disorders*.
glucose analysis in, Dec., **713–725**
blood glucose testing, Dec., 715–724
advantages and disadvantages of, Dec., 724
equipment for, Dec., 717, 719, 721
maintenance and quality control in, Dec., 723–724
reflectometer use in, Dec., 716
sample collection in, Dec., 716
sources of error in, Dec., 721–723
terminology in, Dec., 715
urine glucose testing, Dec., 713–715
hematology instruments in. See *Hematology*.
in diagnosis of streptococcal pharyngitis. See *Streptococcal pharyngitis*.
in diagnosis of vaginitis. See *Vaginitis*.
selection and management of personnel in, performance audit in, Dec., **617–632**
collection of data on performance, Dec., 626–627
definition of performance standards, Dec., 625
development of appropriate solutions, Dec., 630
development of job description, Dec., 623–624
identification of causes of discrepancies, Dec., 624–625
identification of job requirements, Dec., 627–628
identification of performance deficiencies, Dec., 628–630
personnel currently found in office, Dec., 620–622
personnel with laboratory training, Dec., 618–620
role of office laboratorian, Dec., 618
therapeutic drug monitoring in, Dec., **743–760**
case studies of, Dec., 757–760
common terminology in, Dec., 744–747
absorption, Dec., 745
blood/serum level curve, Dec., 746
clearance, Dec., 745–746
half-life, Dec., 746
peak, Dec., 744
plasma-protein binding, Dec., 746–747
steady state, Dec., 744–745
trough, Dec., 744
volume of distribution, Dec., 745
instrumentation for, Dec., 752, 754–756
liability in, Dec., 756–757
predicted serum drug levels in, alterations in, due to age, Dec., 747
due to diseases, Dec., 748
due to drug interactions, Dec., 748–749
due to noncompliance, Dec., 750
due to pregnancy, Dec., 747–748
due to smoking, Dec., 749–750
reimbursement in, Dec., 757
sampling techniques in, Dec., 750–752
Pilonidal sinus disease, management of, Sept., 485, 488, 490
Pityriasis rosea, management of, Mar., 84, 89–90
Plain films, for abdominal pain, Mar., 17
for trauma patient, Mar., 42
Pneumonia, management of, Mar., 122–124, 185
staphylococcal, diagnosis of, Mar., 122
Pneumothorax, management of, Mar., 183
spontaneous, in athletes, Mar., 210–211
tension, Mar., 190
Podophyllin, for warts, Sept., 470, 473
Poisoning, long-term follow-up in, Mar., 155–156
most common types of, Mar., 152
outpatient management of, Mar., **151–156**
sources of information on, Mar., 154–155
toxidromes in, Mar., 154
Polymyalgia rheumatica, temporal artery biopsy for, Sept., 574–577
Potassium, concentration of, disorders of, Dec., 778–780

serum, in fluid, electrolyte, and acid-base balance, Dec., 769
Power of attorney, durable, in decision making, June, 317–321
Pregnancy, eclampsia in, Mar., 142–143
effect of, on serum drug concentrations, Dec., 747–748
first-trimester bleeding and pain in, Mar., 139
pre-eclampsia in, Mar., 142–143
premature rupture of membranes in, Mar., 142
prolapsed umbilical cord in, Mar., 142
ruptured ectopic, vs. acute appendicitis, Mar., 13
third-trimester bleeding in, Mar., 140–141
trauma during, Mar., 140
Pregnancy testing, Dec., **667–677**
bioassays in, Dec., 668–669
enzyme-linked immunoassays in, Dec., 671–672
immunoassays in, Dec., 669
over-the-counter tests for, Dec., 672–673
placental hormones in, Dec., 667–668
problems in, Dec., 674–676
radioimmunoassays in, Dec., 669, 671
uses of, other than confirming pregnancy, Dec., 673–674
Prepuce, development of, Sept., 515
Protein, urinary, in fluid, electrolyte, and acid-base balance, Dec., 768
interference of, in pregnancy testing, Dec., 674
Psychiatry, emergencies in, Mar., **157–167**
Pulmonary edema, acute cardiogenic, causes of, Mar., 72
management of, Mar., 72–74
congestive heart failure and, Mar., **71–75**
hypertension and, Mar., 112
management of, Mar., 183–185
Punch biopsy, procedure for, Sept., 569–571
Pyarthrosis, management of, Mar., 124–125

Radiographs, for epiphyseal injuries, Mar., 147–148
for joint injuries, Mar., 147
for lower airway obstruction, Mar., 180
for upper airway obstruction, Mar., 179–180
Radiography, contrast, for abdominal pain, Mar., 17–18
for trauma patient, Mar., 42
Radioimmunoassays, in pregnancy testing, Dec., 669, 671
Radionuclide imaging, for abdominal pain, Mar., 18
Rape, management of, Mar., 166–167
Rationing, of health care, June, **349–364**
and scarcity of resources, June, 350–351
growing acceptability of, June, 351–352
historical aspects of, June, 352–354
in elderly, June, 303–305
issue of control in, June, 354–356
physician acceptance of, June, 356
principles of, June, 357–363
avoiding economic self-interest, June, 357–358
need for structure, June, 358–360
rationing and reallocation, June, 361–363
replacing domination of cure, June, 360–361
Reflux esophagitis, diagnosis of, Mar., 59
Religion, medical ethics and, June, 235–236. See also *Faith*.
Renal failure, acute. See *Acute renal failure*.
Renal function, tests of, Mar., 173–174
Resources, medical, scarcity of, allocation decisions in, June, **343–348**
and rationing of health care, June, 350–351
Respiratory system, anatomy and physiology of, Mar., 177–178
burns of, Mar., 191
control of, bag-valve-mask system for, Mar., 188
failure of, Mar., 186
emergencies involving, environmental, Mar., 191–192
management of, Mar., **177–192**
nontraumatic, Mar., 178–190
traumatic, Mar., 190–191
endotracheal intubation for, Mar., 188–189
alternatives to, Mar., 189–190
infections of, Mar., 122–124
Rocky Mountain spotted fever, management of, Mar., 92

Scabies, management of, Mar., 94–95
Sclerosing solutions, injection of, for hemorrhoids, Sept., 539–540
Sea nettles, stings due to, management of, Mar., 94
Seizures. See *Convulsions*.
Self-determination, principles of, in decision making, June, 315–317
Senturia trap, in tympanocentesis, Sept., 568
Septicemia, due to gram-negative bacilli, Mar., 129–130
Serum bicarbonate, in fluid, electrolyte, and acid-base balance, Dec., 769
Serum chloride, in fluid, electrolyte, and acid-base balance, Dec., 769–770

Serum creatinine, in fluid, electrolyte, and acid-base balance, Dec., 770
Serum glucose, in fluid, electrolyte, and acid-base balance, Dec., 770
Serum osmolality, formula for, Dec., 768
Serum potassium, in fluid, electrolyte, and acid-base balance, Dec., 769
Serum sickness, management of, Mar., 89
Serum sodium, in fluid, electrolyte, and acid-base balance, Dec., 768–769
Shock, cardiogenic, management of, Mar., 196
  in gynecologic emergencies, Mar., 137
  in trauma patient, management of, Mar., 38–39
  management of, Mar., **193–205**
  mechanical assistance for, Mar., 203–204
  military antishock trousers for, Mar., 204
  obstructive, management of, Mar., 196
  oxygen therapy for, Mar., 201
  pharmacotherapy for, Mar., 202–203
  types of, Mar., 194–199
  volume replacement for, Mar., 201–202
Sickle cell anemia, in athletes, Mar., 212
Sigmoidoscopy, flexible. See *Flexible sigmoidoscopy*.
Sinuses, pain in, management of, Mar., 125–126
Skin, and underlying tissues, anatomy of, Sept., 411–412
Skull, fractures of, in athletes, Mar., 208
Smoking, effect of, on serum drug concentrations, Dec., 749–750
Sodium, serum, in fluid, electrolyte, and acid-base balance, Dec., 768–769
Sodium tetradecyl sulfate, in removal of epithelial cysts, Sept., 483
Specific gravity, urinary, in fluid, electrolyte, and acid-base balance, Dec., 766–767
Spinal tap, for intracranial infection, Mar., 132
  in evaluation of convulsions, Mar., 80–81
Spine, examination of, in trauma patient, Mar., 40
Sports medicine. See also *Athletes*.
  emergencies in, management of, Mar., **207–214**
Stains, techniques for, in fine-needle aspiration biopsy, Sept., 561–563
Staphylococci, infections due to, Mar., 121–122
Stenosis, meatal, following circumcision, Sept., 522–524
Steroids, in joint aspiration and soft tissue injection, Sept., 581, 583–584
Streptococcal pharyngitis, rapid testing for, Dec., **657–665**
  advantages of early diagnosis, Dec., 660–661
  choosing a test kit for, Dec., 661–663
  immunoassays for group A streptococci in, Dec., 659–660
  limitation of throat cultures in, Dec., 658–659
  setting up the test, Dec., 663–664
Streptococci. See also *Streptococcal pharyngitis*.
  infections due to, Mar., 119–121
Subjectivism, in medical ethics, June, 231–232
Suicide, management of, Mar., 157–159
  risk of, assessment of, Mar., 157–158
Sunburn, management of, Mar., 92
Sutures, techniques for. See *Wound closure*.
Swartz-Lamkin/rose bengal solution, in diagnosis of vaginitis, Dec., 634, 636, 644
Syncope, vasovagal, Mar., 137–138
Systemic illness, headache due to, Mar., 98–99

T-plasty, for wound closure, Sept., 444
Temporal artery biopsy, procedure for, Sept., 574–577
Tendinitis, bicipital, joint aspiration and soft tissue injection in, Sept., 588
  supraspinous, joint aspiration and soft tissue injection in, Sept., 586–588
Tennis elbow, joint aspiration and soft tissue injection in, Sept., 588, 590
Tetanus, management of, Mar., 128–129
Thrombosis, mesenteric, Mar., 13–14
Thyroid, masses of, fine-needle aspiration biopsy for, Sept., 553–556
  management of, Sept., 555–556
  traditional testing for, Sept., 554
Tissue flaps, in wound closure, Sept., 439–444
Tissues, soft, injection of, and joint aspiration, Sept., **579–599**
Tourniquet, exsanguinating, for surgery of nails, Sept., 449
Toxic epidermal necrolysis, management of, Mar., 84, 88–89
Toxic shock syndrome, diagnosis of, Mar., 122
Toxidromes, in poisoning, Mar., 154
Transplantation, obtaining and distributing organs for, ethical problems and policies in, June, 379–394
Trauma, advanced life support for, Mar., **33–44**
  definitive care of, Mar., 43
  during pregnancy, Mar., 140
  Glasgow Coma Scale in, Mar., 39
  initial evaluation and resuscitation in, Mar., 35–39
    circulatory status in, Mar., 37–39
      blood pressure in, Mar., 38
      cardiac function in, Mar., 38

shock in, Mar., 38–39
maintenance of airway and ventilation in, Mar., 36–37
pre-hospital care for, Mar., 34–35
radiologic and laboratory investigation of, Mar., 42
re-evaluation of, Mar., 41–42
secondary evaluation of, Mar., 39–41
to neck, Mar., 190
Treatment, refusal of, autonomy in intensive care unit and, June, **395–408**
Trichomonas, detection of, in vaginitis, Dec., 640, 641–642
"Trigger finger," joint aspiration and soft tissue injection in, Sept., 590, 593
Trismus, management of, Mar., 128–129
Tumors, nonendocrine, diagnosis of, Dec., 673–674
Tympanocentesis, Sept., 565–569
indications for, Sept., 566
technique for, Sept., 566–569
vs. myringotomy, Sept., 565–566

Ulcer, perforated, vs. acute appendicitis, Mar., 12
Ultrasound, for abdominal pain, Mar., 18
Unopette systems, for hematology, Dec., 729
Upper respiratory tract, infections of, Mar., 122–124
Urine specific gravity, in fluid, electrolyte, and acid-base balance, Dec., 766–767
Urticaria, exercise-induced, in athletes, Mar., 212
management of, Mar., 87

Vaginitis, office laboratory in diagnosis of, Dec., **633–646**
case studies of, Dec., 644–646
microscopic examination in, Dec., 637–644
slide preparation in, Dec., 635–636
specimen collection in, Dec., 634–635
by clinician, Dec., 634
self-collection by patient, Dec., 635
test materials in, Dec., 633–634
Violent patient, management of, Mar., 159–160

W-plasty, for wound closure, Sept., 416–417
Warnock Commission, on in vitro fertilization, June, 247–248
Warts, biology of, Sept., 465–467
case studies of, Sept., 474–475
clinical manifestations of, Sept., 470–474
periungual, surgery for, Sept., 460, 462
plane, Sept., 472
plantar (myrmeciae), Sept., 471–472
treatment of, Sept., **465–476**
bleomycin, Sept., 469, 471–472
dinitrochlorobenzene, Sept., 469, 471–472
Duofilm, Sept., 470, 471
liquid nitrogen, Sept., 467–469, 471, 473
podophyllin, Sept., 470, 473
surgical excision, Sept., 470
venereal (condylomata acuminata), Sept., 472–474
Wing block, for surgery of nails, Sept., 449, 456
Wound closure, complex, excisional biopsy, and simple flaps, Sept., **433–445**
principles and techniques of, Sept., **411–431**, 433–437
anesthesia, Sept., 413–415
dressings, Sept., 429–430
for circular defects, Sept., 435–436
for rectangular defects, Sept., 436–437
for semicircular defects, Sept., 435
for triangular defects, Sept., 435
for unequal-length wound, Sept., 437
healing, Sept., 412–413
skin anatomy, Sept., 411–412
suture material, Sept., 419–420
suture removal, Sept., 430
suturing techniques, Sept., 420–429
continuous stitch, Sept., 424
dog-ear maneuver, Sept., 429
everting loop stitch, Sept., 421
Gillie's corner stitch, Sept., 427
half-buried mattress suture, Sept., 427
intracuticular stitch, Sept., 426
inverting loop stitch, Sept., 423
three-point suture (corner stitch), Sept., 434–435
unequal loop stitch, Sept., 423
vertical mattress stitch, Sept., 424
undermining, Sept., 434
wound preparation, Sept., 415–419
debridement, Sept., 415–417
hemostasis, Sept., 418–419
undermining, Sept., 418
tissue flaps in, Sept., 439–444

Z-plasty, for wound closure, Sept., 443–444
